Permanent Address : *Hatibandha, Lalmonirhat, Rangpur (Bangladesh).*
Sex : *Male*
Date of Birth : *03-03-1999*
Nationality : *Bangladeshi*

Work Experience

Engineer of Software Farm at Dhaka
20/03/2017 - 19/03/2020
When creating this resume, think of what you want the employer to learn about you in under five seconds. Look at the organization, the appearance, and the information to determine whether the document you have created represents you at your best. You may use a different font besides 12pt Times New Roman for the body of the resume, but do not use more than two styles of fonts—one for headings, and one for text. You must use parallel grammatical construction for all lists and bullet items.

Engineer of Software Farm at Chittagone
03/03/2014 - 19/03/2017
Using an actual job listing from a company in your area of interest, you will create a job application letter and a resume. For the assignment, you will choose where you will apply, conduct minimal research regarding your target company, and analyze your own capabilities and assets. Then you will write a letter of application and a resume. You will submit the resume and letter for grading, along with a copy of the actual job listing.

Engineer of Software Farm at Rangpur
03/03/2012 - 02/03/2014
The letter is your first and maybe only chance to make a good impression, so be sure to provide all the most important details. Using the information found in the job ad, target your letter specifically to that company and that position. You should also design a professional-looking letterhead using fonts of your choice.

Engineer of Software Farm at Pabna
03/03/2008 - 19/02/2012
The resume templates found in Microsoft Word. Some of these templates use bad design principles. They will also insert codes into your document that make changes nearly impossible to make. In a single page, you will create a resume appropriate for the specific job for which you are applying. Please follow proper resume design rules, as outlined in the separate handout, "Resume Guidelines."
